

bio 2010

photo exhibition

25 february 2010 – Kantonsspital Zug, Baar CH – in the context of the art at the building-project «Vom Fuss der Mauern in den Horizont» – curated by Susann Wintsch

Background — Susann Wintsch developed an art in architecture - concept for the new cantonal hospital in Baar. She invites performance artists to create a photographic work in the surroundings of Zug.

Setting — The spacious new building of the cantonal hospital with a large staircase.

Materials and Preparation — The background for the photo series bio 2010 is a meeting with a patient. A talk about internal landscapes and remembered places which in a crisis situation of disease becomes significant. These preconditions take X and Y into the studio and they produce model buildings in which they include memories and their bodies.

Procedure — The photographic work bio 2010 is made up of 28 images.
